Page 4

## When installing a New Lawn:

Use 4 yards (approx. 1" deep) of Cow or Silva Peat per 1000 sq.ft. and rototill into existing soil. If more water retention is desired, use 5 to 15# of Polymer Crystals per 1000 sq.ft. and till in with your manure.

### Order of installation when preparing a new yard around your home:

1. Pre level for drainage and contour. Terraces should be done at this time.
2. Put down your manure and polymers in areas of sod, flowers and gardens.
3. Rototill 6" deep going over all areas twice.
4. Water - to fill soil with moisture - let dry out enough to re-level.
5. Level to a rough grade.
6. Install sprinkler system.
7. Install edging.
8. Install trees, shrubs and plants.
9. Install mulch - either rock or wood.
10. Re-level to fine grade
11. Fertilize with New Lawn Starter or 20-20-10 and Soil Activator
12. Sod or Seed. For Seeding use Colorado's Own blend (Bluegrass, Fescue & Rye) 5-7 pounds per 1000 square feet.
13. If seeding, cover seed with Cow & Peat at a rate of 1 yard per 1,000 sq.ft. (1/4inch)
14. Water-Water-Water! Seed needs light water 5 to 6 times a day just keep moist. No deep watering while germinating seed. (Approximately 10 days)

## To Renovate an Old Lawn:

Aerate - Use a machine that removes the plug. Go over **twice**.  
Apply Polymers at a rate of 1# per 1000 square foot, then leaf rake into holes.  
Apply Seed - Colorado's Own Seed (bluegrass, fescue, rye) at rate of 4# per 1000 sq. ft.  
Apply Soil Activator 1 bag covers 2500 sq feet  
Top Dressing - Apply Cow & Silva Peat at a rate of 1 cu. Yd. per 1000 sq.ft.

To Calculate the material needed for the job: Please go to our web site. [www.donsgardenshop.com](http://www.donsgardenshop.com) A material calculator is there for your use. You will need the length, width and depth.

### ***Dirt or Mulch coverage***

***1 yard will cover***

1" = 300 sq ft      2" = 150 sq ft      4" = 75 sq ft      6" = 50 sq ft  
1.5" = 225 sq ft      3" = 100 sq ft      5" = 63 sq ft      12" = 20 sq ft

Bagged Mulch (2 cu. ft.) Coverage - 8 sq. ft. per bag

### ***Rock Coverage***

***1 ton of Rock will cover:***

1" = 240 sq. ft.      2" = 120 sq. ft.      4" = 60 sq. ft.      6" = 40 sq. ft.  
1.5" = 160 sq. ft.      3" = 80 sq. ft.      5" = 50 sq. ft.      12" = 20 sq. ft.

Rip Rap coverage - 2"-4" 65 sq ft per ton  
5"-12" 35-45 sq ft per ton

## Stepping Stones and Misc items

12" 14" 16" 18" 24"  
Square, Round, Hexagon  
Red, Charcoal, Tan, Grey, Aggregate  
Screen Block  
Splash Block
