Spagnum Peat 3.8 cu ft bale	\$ 27.32
Dirt – Topsoil	
A grade (sandy loam - no nutrients) -----	\$ 15.99
A grade – screened -----	\$ 23.50
Dirt – Fill (structural – sandy) (clay)-----	\$ 8.99

Coverages

1 Yard of material will cover:

1" = 300 sq. ft.	2" = 150 sq. ft.	4" = 75 sq. ft.	6" = 50 sq. ft.
1.5" = 225 sq. ft.	3" = 100 sq. ft.	5" = 63 sq. ft.	12" = 20 sq. ft.

When installing a New Lawn:

Use 3 to 4 yards (approx. 1" deep) of Cow or Cow & Silva Peat per 1000 sq.ft. and rototill into existing soil. If more water retention is desired, use 5 to 15# of Polymer Crystals per 1000 sq.ft. and till in with your manure.

Order of installation when preparing a new yard around your home:

1. Pre level for drainage and contour. Terraces should be done at this time.
2. Put down your manure and polymers in areas of sod, flowers and gardens.
3. Rototill 6" deep going over all areas twice.
4. Water - to fill soil with moisture - let dry out enough to re-level.
5. Level to a rough grade.
6. Install sprinkler system.
7. Install edging.
8. Install trees, shrubs and plants.
9. Install mulch - either rock or wood.
10. Re-level to fine grade
11. Fertilize with New Lawn Starter or 20-20-10 and Soil Activator
12. Sod or Seed.
13. If seeding, cover seed with Cow & Peat at a rate of 1 yard per 1,000 sq.ft. (1/4inch)
14. Water-Water-Water! Seed needs light water 5 to 6 times a day just to keep moist.
No deep watering while germinating seed. (Approximately 10 days)

To Renovate an Old Lawn:

Aerate - Use a machine that removes the plug. Go over **twice**.

Apply Polymers at a rate of 1# per 1000 square foot, then leaf rake into holes.

Apply Seed – Colorado perfect seed (bluegrass, fescue, rye) at rate of 1# per 1000 sq. ft. Others at 2-3# per 1000 sq. ft.

Apply Soil Activator 1 bag covers 2500 sq feet

Top Dressing - Apply Cow & Silva Peat at a rate of 1 cu. Yd. per 1000sq.ft.

Apply Revive - Use liquid or granular product.

Water - New seed **MUST** be kept moist until germinated. That means water 5-6 times on a hot dry day. Only the top 1/4" needs to be kept wet. No deep watering while germinating seed. (Approximately 10 days)

Bulk Grass Seed

<u>Lawn Blends</u>	<u>Pound</u>	<u>Prairie/Native</u>	<u>Pound</u>
Colorado Perfect (kentucky blue, rye, fescue blend)	\$ 4.95	Dryland Pasture	\$ 6.11
Water Less (fescues)	\$ 4.60	Low Grow Low Maintenance	\$ 4.46
Kentucky Blue (Hybrid)	\$ 6.33	Foothills	\$ 4.36
Rye			
Annual - winter	\$ 2.80		
Perennial	\$ 3.05		

Recycle with us!

Thatch/Yard clean Up - NO Trash	\$ 6.00 yd
Branches NO Trash	\$ 6.00 yd
